SEMICON Japan 50 Years | Special Events

SEMICON Japan celebrates 50 editions and five decades of progress in the semiconductor industry. Join us as we explore what's next and shape the future together.

- THE LEGACY EIGHT
- THE NEXT FIFTY
- THE HISTORY ROAD

2026 12.9 [WED] > 11 [FRI] 10:00 ▼ 17:00

Tokyo Big Sight
Ariake Central Tower Hall & Conference
Tokyo Fashion Town (TFT) Building

Organized by: **SEMI**

Explore the Latest Strategy, Technology, Business and Talent

Exhibition
Major Japanese and international companies that connect the semiconductor supply chain gather together

Seminars
More than 70 programs including presentations by over 300 top executives and experts

Networking Events
Opportunities for communication and business creation that can only be achieved through real events

Workforce Development
Programs to support the development of the next generation of industry leaders

CO-LOCATED EVENTS

Welcome to the design-driven era of semiconductor
ADIS®
Advanced Design Innovation Summit

For top players in semiconductor packaging and PCB mounting
APCS®
Advanced Packaging and Chiplet Summit

Mastering the "invisible": the forefront of metrology and inspection
MIS
Metrology & Inspection Summit

CONTACT **SEMICON Japan 2026 Visitor Support**
Email: semicon2026@operation-desk.jp
Open Period: 10/7 (Wed) - 12/11 (Fri) (closed weekends / holidays)

The theme of SEMICON® JAPAN 2026 is "Transform Tomorrow"

KEY TOPICS | **The future of semiconductors comes together here.** | **West Hall 3 - 4**

TechLeadersARENA

Connect with industry leaders, exchange ideas, and shape the future at TechLeaders ARENA.

TechLeadersSUMMIT

A stage where TechLeaders ARENA exhibitors share their challenges in innovation and visions for the future.

»West Hall 4

NetworkingSUITE

A networking lounge hosted by TechLeaders ARENA exhibitors, fostering dialogue and connections across industries.

»West Hall 4

AIS sustainability semiconductor summit

A summit where leaders in AI, sustainability, and semiconductors share challenges and solutions for a sustainable future.

»West Hall 4

ADIS® Advanced Design Innovation Summit

Explore semiconductor design and business strategies, with the latest in EDA, IP, device and board design.

»West Hall 3

APCS® Advanced Packaging and Chiplet Summit

Discover the latest semiconductor packaging technologies enabling smaller, more energy-efficient and higher performance devices.

»West Hall 1 - 4

WORLD OF PHYSICAL AI -Robotics & Semiconductor-

Discover Physical AI at the intersection of semiconductors, AI, and robotics, and see how it will shape our future.

»West Hall 3

Quantum Computing Pavilion

Quantum computing meets the semiconductor industry, featuring Japan's first domestically developed semiconductor quantum computer.

»West Hall 4

Disassembly Zone

Teardown exhibits of automotive electronics and smartphones reveal the semiconductors and advanced packaging technologies inside.

»West Hall 3

SuperTHEATER

Reception Hall A - B, Conference Tower 1F

Tim Costa
NVIDIA

Tony Kawai
Tokyo Electron

Daishiro Yamagiwa
Chairman, Diet Members Caucus for the Promotion of Semiconductor Strategy (LDP)

Masato Goto
SCREEN

David Bloss
Intel

Hironobu Tamba
SoftBank

Mukesh Khare
IBM

Steven Scheer
imec

Atsuyoshi Koike
Rapidus

H.-S. Philip Wong
Stanford University

Miku Hirano
Cinnamon AI

Christel Takigawa

Global leaders explore the semiconductor industry's past and future.

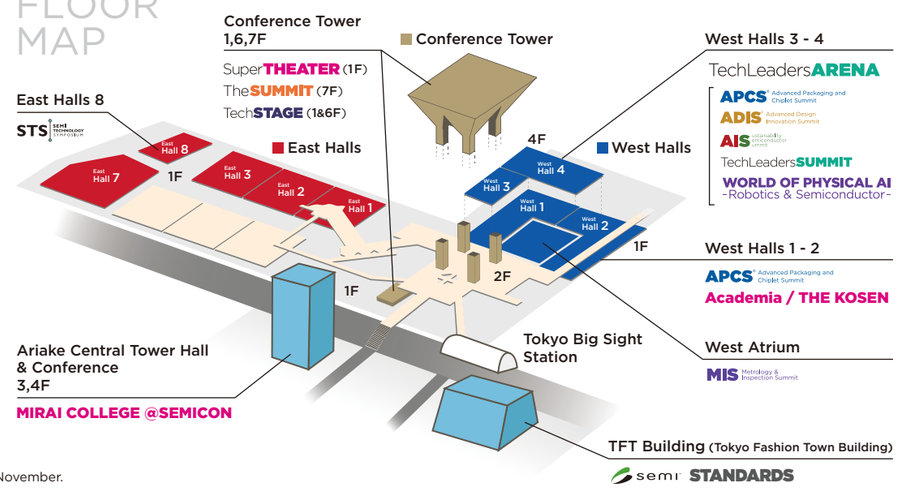

Featured Keynotes

- **SEMICON Japan 50 Years | Future Vision Summit**
  Beyond 50 Years: The Future Starts Here.
  Leaders in policy, industry and technology explore Japan's role in an AI-driven future.
- **Global Semiconductor Leadership Summit**
  Global chip leaders envision the AI-driven industry and its next 50 years.
- **Powering the Physical AI Revolution**
  Leaders tackle the foundations and challenges of bringing Physical AI to society.
- **Agentic AI and the Future of Industry**
  Explore how Agentic AI and human collaboration will reshape industry and create value.
- **Japan's Strategy for Advanced Semiconductors**
  Explore the progress and impact of Japan's chip strategy—and what lies ahead.
- **Economic Security and Semiconductor Geopolitics**
  Experts from Japan, the US and Europe examine chip geopolitics and supply chains.
- **SEMICON Japan 50 Years | Grand Finale**
  Leaders explore how AI and chips can help build a sustainable, human-centered future.

semi™ | SEMICON® JAPAN 50 YEARS

Exhibitions, seminars, and special programs—the highlights keep coming!
For more detail and registration, visit SEMICON® Japan website!
https://www.semiconjapan.org/en The venue floor map and detailed exhibitor information will be published on the official website in November.

FLOOR MAP

Technology

Contents covering diverse themes from semiconductor design, materials, equipment, wafer processes, testing, to packaging are ready.

STS SEMI TECHNOLOGY SYMPOSIUM

Engineers share new technologies and connect at the 45th symposium.

»East Hall 8

MIS Metrology & Inspection Summit

Experts discuss chip inspection and metrology to improve yield.

»West Hall 1F West Atrium

SMC STRATEGIC MATERIALS CONFERENCE Japan

Explore next-gen logic, memory and materials for the AI era.

»TechSTAGE FUJI

Workforce Development

Empowering the next generation: Gen Z support program

MIRAI COLLEGE @SEMICON

Meet 64 leading semiconductor-related companies through student-only booth tours and a company research rally.

»Ariake Central Tower Hall & Conference

Academia / THE KOSEN

Explore university research, industry partnerships and a semiconductor award on the 9th.

»West Hall 1 / Conference Tower 102

SEMI Circuit Design Speed Contest

Technical college students nationwide compete in a unique CAD circuit design contest.

»Conference Tower 102

SEMI THURSDAY "WAKAMONO" NIGHT

Join Monozukuri Taro and Prof. Hiroshi Amano in conversation, plus Yoshio Kojima's Passion Lab. Learn, connect and create together.

»TechSTAGE YUZU / ZEN

Manufacturing Taro

Hiroshi Amano
Nagoya University

Yoshio Kojima

Women in Business

Explore how to advance women in semiconductors through case studies and a workshop.

»Conference Tower 610
